Personalized Resume Review Session

Success Stories

Chandani Priya

Working at TheMathCompany

Recommended to anyone who is trying to learn Data Science. Teachers go through every detail and in between they tell you what questions are mostly likely to ask in the interview! Which is important! Also gives you assignments for weekends! Overall really good experience! Worth it!

Rinav

Working at Mphasis

Someone starting in Data Science, Learnbay is definitely one of the institutions to go for. Detailed syllabus, good trainers, flexibility in batch (if someone wants to repeat any module), supporting staff, very good learning experience for me.

Domain: BFSI

Preksha Mishra

Working at HCL

The course structure is excellent with emphasis on concept building and tools & software at the same time. The support team is excellent and supportive and quite agile to respond to doubts.

Success Stories

Shezan Baig

Working at Accenture AI

Learnbay is one of the most remarkable data science institutes I've come across. In comparison to other institutes in India, it offers a data science course at a low cost. Excellent value for money. I would strongly advise everyone to attend this institute. All of the trainers are excellent in their own subject, but the Stats & ML trainer in particular is outstanding.

Viraj Ghodke

Working at Affine Analytics

For me, learning using the Learnbay platform has been a great experience. The teaching and management team are very helpful. They are constantly willing to clarify each individual's doubts and meet the needs of working professionals. I owe my gratitude to the trainers and the whole Learnbay team for assisting me in getting placed.

Pooja Sharma

Working at Learnvista

I have done Data Science and AI certification and got placed within 8 months. Journey was really tough for me because i was from mechanical domain. But the mentors were really helpful and they have good industrial knowledge. Facility of recording classes is very useful.

Salary Hike

Shubhangi J. Waghmare

Working at Infracore Technologies

The offering here is best in the industry I would say both cost and curriculum wise. One advantage joining here is you can access their resources for lifetime unlike others where you have accessibility only for a year or so. Most importantly, there is continuous assistance for recruitment. Well,one enrolls for any course and ends up getting a handsomely paying job.

Pawan Yadav

Working at Oracle

I have done Data Science certification and i placed in Oracle. Journey was really tough for me because i was from core electronics domain. Mentors are really helpful and they have good knowledge. Personally i liked teaching style of Trainer Nishant. Facility of recording classes is very useful.

Suman Karmakar

Working at IBM

It was a good and effective course with dedicated faculties for modules.You get flexibility to attend classes from multiple instructors.Very Supportive environment for learning.

Anup HP

Working at Ocwen Financials

I recently completed my AI & Data Science Program at Learnbay and I am impressed with the quality of the program. The instructor has a deep understanding of the subject and is always willing to help when I needed clarification. The course content is well-designed and easy to follow, I highly recommend this program to anyone looking to enter into Data Science field.

Success Stories

Samarth Sharma

Working at TCS

Learnbay's Data Science course was a game-changer for my career. With their comprehensive training I landed a Data Engineer role at TCS. It's good that the Learnbay team is still in touch even after course completion and after I have joined my new job. Highly recommended for aspiring data scientists seeking lucrative job opportunities.

Abhishek Narayanan

Working at A&J

Learnbay's comprehensive and well-structured curriculum impressed me even when I had zero programming experience. The live interactive classes and recordings simplified the learning process & highly skilled instructors provided in-depth knowledge and industry best practices. Guided weekend project sessions bridged theory and implementation.
